Stainless Steel Electric Water Heater

THERMOSTAT AND HIGH LIMIT CONTROLS:

Commercial temp: min 120°F max 181°F

HOT WATER CONNECTION:

Outlet connection on the top of the tank (with built in Heat Traps)

THE FINEST PROTECTION:

Laser welded through a concentrated heat source producing high quality, long lasting, 316L stainless steel tank construction (lightweight) - Superior corrosion resistance, eliminates the need for anode rods, protects against harsh water conditions for a lifetime of durability against leaks - Fantastic Limited Warranty

MINIMAL HEAT LOSS:

Heavy-duty insulation

HIGHEST QUALITY TITANIUM ELEMENTS:

Low watt operation; Titanium screw plugs; Increases corrosion resistance for extended, longer element life

STANDARD FEATURES

- Stainless Steel Tank
- Heavy Duty Insulation
- Electrical Connection Box
- 2 Titanium Elements
- Limited Lifetime Warranty for Light Commercial Units
(10 year warranty if not registered online)

IN THE BOX

- T & P Relief Valve
- Installation Manual
- Brass Full Port Drain Valve

No Anode
Rods Needed
Thermal Watt
Low Density

THE WESTINGHOUSE ELECTRIC: STAINLESS STEEL WATER HEATER

The Westinghouse Electric Water Heater combines high quality stainless steel construction and energy efficient operation, providing long draws of hot water without consuming large amounts of energy. A cleverly designed water connection directs cold water to the heating element near the bottom of the tank to minimize the mixing of cold and hot water. Durable components, low standby heat losses, high recovery rates, and the industry's strongest warranty make the Westinghouse Electric Water Heater an ideal choice for electric water heating needs.

A Closer Look

The Inlet and Outlet have Built in Heat Traps, Keeping the Heat in the Tank for Greater Efficiency

316L Stainless Steel Tank

Our Components are Made of Durable Materials:

Inlet and Outlet Nipples Constructed of Durable Brass

Highest Quality Titanium Elements

High Grade 316L Stainless Steel Tank Construction

The Advantages

Stainless Steel VS Glass-Lined

Westinghouse's Stainless Steel Tank
Lightweight

Top Competitor's Glass-lined Tank
Very Heavy

Minimizes Scale Build Up
Prolongs Tank Life
No Need for Anode Rods
Lightweight Construction

NO Anode Rods Needed!

All coated tanks require anodes to delay the inevitable corrosion and tank failure. The average residential water heater lasts about 13 years. The Westinghouse stainless steel tanks will outlast any coated steel tank in the market.

Dimensions & Specifications

The Inlet & Outlet have Built in Heat Traps, Keeping the Heat in the Tank for Greater Efficiency
